

What is Exploring ?

Exploring exists to teach important life and career skills to young people from all backgrounds through immersive career experiences and mentorship provided by community and business leaders. Together, we equip young people with character, leadership and life skills that can be used both today and in their future careers.

Exploring is based on a unique and dynamic relationship between youth and the organizations in their communities. Businesses and community organizations initiate a career-specific Explorer post by matching their people and organizational resources to the career interests of youth in the community. The result is a program of interactive activities that helps youth pursue their special interests, grow, and develop.

Most Career Exploring program align with the high school calendar and begin in the fall, while some also offer summer activities, conferences, internships and other events. Most meet once or twice a month throughout the school year.
